EAST KENTUCKY IS INDUSTRIAL TOPIC AT ALL-DAY MEET

East Ky. Industrial
Foundation to Get
Aid Of Agencies

The industrial future of North-eastern Kentucky was the subject of a discussion of plans for that region at meeting of the executive committee of the Eastern Kentucky Industrial Development Foundation, Inc. held in Lexington Tuesday with representatives of the Committee of the South and various federal and state agencies.

The foundation represents 14 northeastern counties from Lewis on the north, south to Letcher and as far west as Magoffin, Morgan, Elliott, Rowan and Carter.

Other agencies represented at the all-day meeting were the Kentucky Agricultural and Industrial Development Board, the Kentucky Chamber of Commerce and the Cleveland Federal Reserve Bank.

Governor Lawrence Wetherby also was present for the luncheon and most of the afternoon discussion. Norman Chrisman, Pikeville, chairman of the EKID, presided at the sessions.

George Hubley, Frankfort, the executive director of the A and ID board, said the meeting laid the groundwork for a cooperative program between the above-named agencies with the Eastern Kentucky Industrial Foundation which was organized in January of this year and since has been actively engaged in the planning phases of a program designed to improve economic conditions of that area of the state.

He explained all agencies represented yesterday will help in making an analytical survey of the resources of Eastern Kentucky and will present the results of that survey to manufacturers who are seeking a combination of conditions for plant locations.

"We want to be able to say, 'This is what you need, and here is what we have to offer,'" Hubley said.

Members of Eastern Kentucky Industrial Development Board, besides Chrisman, who attended the meeting are: Harry LaViers, president of the South-East Coal Company, Paintsville; John W. Woods, Jr., president of the Third National Bank, Ashland; J. Douglas Turner, cashier, the First National Bank, Paintsville; Bruce Walters, Walters-Keene Motor Company, Inc., Pikeville, and R. E. Doyle, Jr., vice president of the Kentucky-West Virginia Power Company, Ashland.

A and ID board members were W. R. Davlin, chief of the research division of the board; Phil M. Miles, chief, maps and minerals division and Joseph H. Taylor, executive assistant.

Representing Kentucky Chamber of Commerce were Dewey Daniel, Hazard, president; Harper Gatton, Louisville, vice president, and Walter Koch, Louisville, director of industrial development for the trade board.

Present from the Cleveland Federal Reserve Bank were Clyde Harrell, Cincinnati, the assistant cashier, and Merle Hostetter, research director.

The Committee of the South was represented by Phil Hamner, Atlanta, Ga., executive officer, William H. Stead, Washington, D. C., vice chairman; Dal Hitchcock of Washington, D. C. who is consultant, and Robert Hensley of Hensley and Logan, Louisville. LaViers also is a member of the Committee of the South, "a group of Southern leaders taking sharp look at the future of the 13 Southern states."

The group plans to meet again in a month, probably in Lexington.

In Ol' Morgan

THE LAST DEER

(By J. M. Gevedon)

A few years after Joseph Carter, Jr. had made settlement on the Carter Fork of Grassy Creek, the deer that had been plentiful, had become practically extinct. Uncle Josey, as he was familiarly known, had been one of the veteran deer hunters of this section, but since the deer were few and hard to find he had ceased his visits to the hills and settled down to clearing and improving the rich lands he had acquired, and to the raising of cattle, hogs and sheep.

It took but little effort to raise herds of these animals, since his cattle and sheep thrived on the rich pea-vine of the hills and the brakes of cane along the creeks, while his hogs fattened on the acorns and chestnuts that rolled into the hollows within the vast forests. His greatest worry was the protection of his stock from the predatory bears, wolves, bobcats, panthers and eagles that

It'll Soon Be School Homecoming Time Again In Ol' Morgan County

West Liberty Grads
Will Hold Annual
Meet Here Aug. 29

It's Homecoming Time! By the time all you alumni and teachers of the old Matthew T. Scott Jr. Collegiate Institute and Morgan County high school read this you will be wise to start making plans to hitch Old Dobbin to the Shay and hie to the hills of Morgan for another happy, hugging, handshaking week end with old friends and schoolmates.

Those of you who attended last year's gala homecoming will never forget what a grand event it was. And what the planning committee for this year's homecoming met last Thursday, one of those present said that a bigger crowd than ever was expected to be on hand this year to, sing, frolic, trip the light fantastic, or whatever.

Saturday, August 29, is the big day. Things will get under way early Saturday afternoon when an informal get together and reception will take place at the Cole Hotel in downtown West Liberty. Uptown, later that evening at 8:30 o'clock to be exact—the big event, the banquet, will take place at the cafeteria of Morgan County high school. The cafeteria is large and spacious and there will be plenty of room for everyone. Following the dinner, a grand frolic and old-time play-party will squeeze the utmost out of the remainder of

the day. If homecomers number in the hundreds and hundreds, the crowd will adjourn to the high school auditorium, just a few feet away.

Nothing is being left undone to make this year's homecoming as gay and pleasant as last year's, and, in fact, something new has been added. For example, no one will get caught with a chicken wing on his dinner plate, but everyone will be served delectable breast of chicken, prepared and served by those masters-in-the-kitchen, the G. C. Banks Circle. To round out the menu there will be tomato cocktail, peas and corn with sauce, candied sweet potatoes, tossed salad, hot rolls, fried ice cream, apple pie—all for the price of \$1.50 per plate.

Those present at the planning meeting at Stamper's last Thursday were Miss Floris Cox, president; Mrs. Henry L. Stacy, secretary; Bernard E. Whit, treasurer; Mrs. C. K. Stacy, Mrs. J. L. Blair, and Mrs. Goldie Dennis. This is the committee on August 29th. Reception committee at the hotel—Mrs. C. K. Stacy, Chm., Mrs. J. L. Blair, Mrs. Goldie Dennis. Toastmaster for banquet—Ova O. Hancey. Memorial Resolutions—Bernard E. Whit.

Program for evening—Nancy P. Turner, chm., Mrs. Seitz Lewis, Bess Resch, Ruth Conover. Committee for Talent Show by Morgan County high alumni—Major Gardner, Mrs. Dorothy S. (Continued on Page Four)

FINAL PLEA OF WELLS

I always hate the unpleasant things that are said in a campaign, and this is one that I did not want to be drawn into any mud slinging, but you know the facts.

In summary of my opponent's campaign you will note the things that bothered him—he was afraid that I voted for some Republican; he was gravely concerned about the politics of my wife, but he at no time told you that I would not make you an excellent County Attorney, or that I would not work for you.

Now in view of the facts, you should go to the polls and vote for LYNN B. WELLS as your County Attorney and good county governor.

If I have said anything that hurt the feelings of my fellow man, I want to apologize for it at this time. I am

STATEMENT OF NOAH P. GREER

TO THE PUBLIC OF
MORGAN COUNTY.
On June 13, 1953, I filed a notification and declaration as a candidate for Tax Commissioner of Morgan County. After I filed requiring my name to be placed on the ballot, our Circuit Judge signed a judgment for my name to be placed on the ballot, after the Ted R. Turner case was decided by the Court of Appeals. On July 11th our Circuit Judge prepared another judgment ordering the County Court Clerk not to place my name on the ballot. I am sorry that I do not have time to carry this case through the courts before the August Primary Election. I will not be a candidate for Tax Commissioner this year. However, I want to thank the many persons that advised me that they wanted to vote for me and make a fight in my behalf, and to say that I appreciate your friendship and that I am your friend.

Sincerely yours,
NOAH P. GREER

KOREAN TRUCE SIGNED SUNDAY HALTING FIGHT

UN Forces To Stay
In Korea Pending
A Final Settlement

The United Nations command and Communist delegates signed the long-awaited Korean armistice at Panmunjom, Korea, Sunday, halting 37 months of undeclared war.

All shooting along the 155-mile front across the middle of Korea along the 38th parallel was ordered stopped 12 hours later. But Chinese forces at several points attacked United Nations lines right up to the deadline, evidently for propaganda purposes.

Meanwhile, General Mark W. Clark, UN Commander, warned his United Nations forces in a radio talk that the Korean armistice does not guarantee peace or even an early withdrawal from Korea.

"We must face the fact that this is not peace, but a suspension of hostilities," said the UN commander.

"We cannot turn our backs on the conflict and go home," he said. "That would be reckless and dangerous. The conflict will not be over until the governments concerned have reached a firm political settlement."

"It is my fervent hope," Clark said, "that this suspension of the fighting will lead to peace. But bitter experience has taught us that we must be prepared for any eventuality."

In Washington, President Eisenhower spoke to the nation in a radio and TV hookup Sunday evening saying the "nation greets with prayers and thanksgiving" the signing of the armistice. He told Americans that only courage and sacrifice can keep freedom alive on earth. The President said the Communists can now show their good faith in the campaign for peace by the "swift release" of UN troops who are being held as prisoners.

He said fighting men of 15 allied nations under the UN banner had met the Communist challenge "with the words: 'We will not be beaten.'"

He paid special tribute to the "valorous" army of South Korea whose president came close to wrecking the truce.

"We may not relax our guard or cease our quest" for the type of agreement that will insure world peace, the president said.

Minutes after the historic document was signed and blotted, an authoritative source announced that the Communists had promised to return 3,500 American prisoners of war in a POW exchange to begin in a week or less.

Meanwhile, President L. B. Pearson of the United Nations summoned the world parliament for a post-Korean truce session Aug. 17. The assembly of the United Nations will meet to set up the Far Eastern political conference which the armistice terms specify must follow the truce signing within 90 days. It will tackle such thorny problems as Korea's unification and withdrawal of foreign troops.

WHY NOT SHEEP?

(Kentucky Agricultural Bulletin)

Lamb and wool growers in Kentucky have had and will have many more profitable years from their sheep enterprises. Most informed persons are advising the expansion of the State's sheep numbers for many reasons and the first of these is just Kentucky.

Old "Kaintucky" has the climate for near year round pastures without either extremes of heat such as found to the South of us or of cold as to the North. The latter extreme is to the sheep raisers' advantage, especially during lambing time, while the first extreme which we Ken-

tuckians escape, encourages more rapid lamb growth and a better quality wool clip.

Her topography is plainly that of typical sheep country. Rolling ground, even the steeper sections, appeals to this class of livestock especially.

We would bring in the fact that our State is a Grassland State—getting greener all the time—however, this is not especially advantageous to sheep over any other class of grazing livestock. Sheep will help you keep these fields greener with grasses and clovers instead of weeds though.

A second reason in favor of sheep is the fact that numbers aren't as high as they should be over the entire 48 states. As long as this condition exists, sheep are good business. Experts estimate that many years will elapse before sheep can possibly be in the present position of cattle. Though the market on lambs seems to be off to some degree in these days of "tapering off", sheep replacements are in line.

You can hear many farmers state that they wouldn't have a sheep on the place. Ask the man who has sheep, why he has a flock and you'll get a true answer. Many cattlemen have sheep to keep pastures cleaner and add to the quality of feed seeds they produce. What about the advantage of having empty tobacco barns to house the flock during lambing?

Seriously here is an income that too much of Kentucky is passing up. Give it some thought and let's make our State the Sheep State in the future.

The Louisville Produce Exchange reported that farmers are netting \$1.75 a hundred for U. S. No. 1 potatoes as compared to \$4.95 last year.

DR. ADOLPHUS GILLIAM

DEALING WITH OUR WORRIES

You know this question of worrying is of universal importance because most people worry. The Master dealt with it in a very fine way. He gave us some good admonition about it but in spite of it all and all that has been done since to help us overcome it many of us keep on making ourselves sick because we do too much worrying. The Master on one occasion made a striking statement in which He said, "Don't take thought of tomorrow, what ye shall eat or what ye shall put on; your life is more than meat and the body is more than raiment;" and then He went on to say,

"Take a little notice of the lilies of the field, they toil not, neither do they spin; and yet Solomon in all his glory was not arrayed like one of these. If God so clothed the grass that today is and tomorrow is cast into the furnace will He not much more clothe you, oh ye of little faith." At first glance at that it seems that the Master is trying to tell us that we need not take anything seriously or earnestly but He was not saying that because no one ever walked among us who was more earnest than He; and He was not trying to say to us, "Don't you think ahead either" because we know that the Master certainly took things in advance and marched steadfastly with a mind set on the future.

Well, what was He trying to say? He was saying this—that down in the deep of our heart all of us know that worrying is something that never does us any good and yet we keep courting it so to speak, encouraging it until finally it

becomes equal to us and then gets beyond us and we become its slave. I would like to look at it for the sake of all of you who think with me today on something about this present day problem of worrying. One of the reasons I would like to do it is because so many people do. Now I need not tell you that the ignorant folk worry because they don't know any better—and the educated worry because perhaps they know too many things—and the old folk worry because they are down on the western slope of time and they don't like the look of things; certain of the young folk do a lot of worrying because of the long life out before them and the many disturbing sights and messages that they see. Now I am sorry to say that even the religious folk, many of them, worry. That ought not to be said but they do, and the irreligious worry because they have no faith. So you see why this would cover the whole multitude of all of us.

Today if all of these types of people are worrying then we should look into it as it is a dangerous thing. In this modern age we have so many things that we can worry about. We can worry about our bodies, and we do a lot of it, and I am not going to minimize the fact that the prospects sometimes of a lingering disease or something that may come to us is not a challenging something to bring disturbance in the inner life. Then some people, not as many as perhaps ought to do it, worry about their soul. I am speaking now of just worrying, not doing something about it. You know married people worry because some of them are unhappy in their marriage and then some folk who are not married worry about getting married. So you see why there are so many things that we can worry about that there we stand subject to this kind of disease, and I frankly say to you that it is in a sense a disease, that it is very difficult for us not to allow this to overcome us and sap our energy and defeat us in many of our purposes.

BACK TO THE BIBLE

We believe the Bible should be our only source of authority; that we should not go beyond that which is written. People today are going astray, astray from the word of God. People, like sheep, are going astray, every man after his own way. They do not respect the Bible today as being the only authority that God has given us. It is confusing to most people—they look at the Bible to be something no one can understand. Preachers are climbing in the pulpits praying for God to give them a message saying they cannot say a word unless God will give them a message; they lay all the blame on God if they can't think of something to preach. They do not want to turn to the Bible to preach that which has already been preached. The Bible condemns all such preaching. In Gal. 3-9 we read "But the we or an angel from heaven preach any other gospel unto you than that which we have preached unto you, let him be accursed."

As I said before, so say I now again. If any man preach any other gospel unto you, than that ye have received, let him be accursed.

We do not believe in asking God for another message, but to study and pray to be able to rightly divide the word of truth which we find written in the Bible. Our plea is today to turn back to the Bible to prove all things that we teach to be in harmony with the Bible. We believe what we teach today to be in harmony with the word of God.

We invite you to attend our lectureship meeting beginning on Aug. 14-16. Come and hear the gospel preachers who will be at the Church of Christ at Elamton to bring you the word of God that which you can find written in your Bible. Everyone is invited to attend, no matter what your faith may be.

Bro. Wayne F. Dunn from Middletown, Ohio will deliver a message about nine o'clock, Marshall from Royalton on Friday; and Bro. Jim Lawson from Big Woods will speak Sunday. There will be other ministers there also, to speak during the meeting—Your Friend to Christ, CHARLES E. HUTCHINSON. (Pd. Adv.)

IN OL' MORGAN

(Continued from page one)

roamed this section in his day. One afternoon, while out looking up some of his stock, he found the tracks of a deer that had crossed the creek, walked through the bottom and up what is now known as The Testerman Branch that empties near the old Grassy Lick school house. Since at that time, this branch was an untouched forest, and since it was not likely that the deer would leave there till morning, he decided to wait for a new day to look the fellow up.

Early next morning he started the trail and about nine o'clock he discovered the deer picking on some moss by a small cliff. He quickly disposed of the deer; shouldered it and started for home. He hadn't gone far till he heard something in the leaves, and looking back he discovered a large panther following on his trail. He made as much speed as possible with his load, but the panther gained, and finally got in front where it would peep from behind a tree, waiting his approach. He feared to shoot it with his old flint-lock, lest he might wound it, then before he could reload, the enraged beast would be upon him while he would have no protection. So making a quick decision he dropped the deer and took off in another direction.

A man who had two large deer hounds of late moved into the head of Grassy Lick, about three miles distant. Uncle Josey made a bee line for the hounds. When they arrived at the place where he had dropped the deer, the dogs took the trail. The panther had dragged the deer up a long, steep point; had eaten the entire carcass and when the dogs came was seated calmly on the limb of a large tree, but as the dogs approached he leapt to the ground and outran the dogs till they lost him in the cliffs of The Licking somewhere near the mouth of Grassy Creek. This was said to have been the last deer killed on the Carter Fork of Grassy Creek.

If readers of M.M. have been wondering what happened to the editor, perhaps this open letter will be explanation enough.

It was on July 1 that I passed my oral examination, the last remaining hurdle between me and my M.A. Degree in English. My wife's doctor had already recommended a vacation for her, therefore we decided to make it an automobile tour of the West.

We left Lexington July 2, had breakfast in Louisville and arrived in St. Louis, Mo. in time for dinner. We spent three days there with friends then moved on. We had lunch in Sedalia with other friends and moved on again. Near Lee's Summit and a few miles from Kansas City we stopped at Unity Farm, the new home of the Unity School of Christianity. We spent some time touring the place then went on to Kansas City and from there to Lathrop and the home of Alma Robison Higbee where dinner was awaiting us. We spent that night and most of the next morning with the Higbees, came back to Kansas City and visited some friends there for a while, then headed west into the state of Kansas.

Night found us in Beloit, Kansas where we stayed until the morning. Back on the road again, we arrived in Colorado Springs, Colo. about 4 p.m. This was July 8. We drove through The Garden of the Gods, took

pictures, then began our daring drive up Pikes Peak, a round-trip distance of about twenty miles which took us more than four hours. We spent that night in Manitou Springs, the little town at the foot of the mountain.

Next morning we went back to the Garden of the Gods for some color pictures then headed north. We spent the night at Granby, a town at the entrance of Rocky Mountain National Park. The next day we drove through the park, stopping at points of interest. We took a boat ride on Grand Lake and played in the snow on top of a rugged mountain. Out of the park, we crossed the border into Wyoming and spent the night in Laramie where we found a holiday spirit. The people were working themselves up toward a big rodeo. One block of the town had been roped off and they were square dancing in the street.

Why FORD'S your best buy!

"Best buy" where you ride! Ford's foam-rubber cushioned seats, front and rear, are so wide and so soft. Interior fabrics, color-keyed to Ford's smart outside colors, would be a credit to any car at any price.

"Best buy" where you drive! Ford's suspended pedals operate more easily... eliminate dusty, drafty floor holes. And Ford drivers have a choice of Fordomatic Drive, Overdrive or Conventional transmission.

"Best buy" at the gas pump! When you need to "fill 'er up", you do it the modern Ford way with Center-Fill Fueling. And Ford's Automatic Power Pilot gives you power to spar on a lean diet of regular gas.

"Best buy" on the road! The rougher the road the better your Ford likes it because Ford's new "ride" cuts front end road shock alone up to 80%... bounces you over the bumps... and cuts sideways on turns.

"WORTH MORE" IS THE ANSWER... IT COSTS SO LITTLE TO BUY... SO LITTLE TO RUN... AND HAS SUCH HIGH RESALE VALUE!

The best buy in an automobile usually means the amount of pleasure and satisfaction the owner gets from his original investment, plus low day-to-day running costs, plus the amount of value he recovers when he sells his car.

What is it that makes Ford your best buy? Is it the fine styling and craftsmanship of its Crestmark Body... or its new "ride" with curve-hugging and bump-leveling qualities never before known in low-priced cars? Or is it Ford's famous V-8 or

Mileage Maker Six? Maybe it's the easy way the car handles with Fordomatic Drive, or Ford's Master-Guide power steering! Perhaps it's Ford's suspended pedals, or Center-Fill Fueling or Full-Circle Visibility!

Actually, it's not just any one or two of these fine things that make Ford your best buy. It's all of Ford's "Worth More" features combined... features which make Ford worth more when you buy it... and worth more when you sell it!

"Best buy" in engine power! Only Ford in its field offers you a choice of V-8 or Six. Ford has built more V-8's—over 13,000,000—than all other makers combined. And Ford's Six—the most modern in the industry—with Overdrive, won the Mobilgas Economy Run Grand Sweepstakes!

"Best buy" in power steering! Ford's Master-Guide (available on all V-8 models) supplies hydraulic "muscles"—automatically whenever you need them—to do the work of steering for you. All you do is guide the car. Makes all driving easier, and safer. And parking's so easy!

Former Morgan Couple Joyous at Korea Truce; Await Return Of Son

Mr. and Mrs. John Eldridge of Fairborn, Ohio, formerly of Lenox and Wrigley in Morgan county, were overjoyed when they heard of the signing of the truce in Korea, for it meant that their son, Johnnie Eldridge, who has been a prisoner of war in Korea since July 5, 1950, will soon be home. The shooting war in Korea reached its end at 8 a.m. Monday, July 27, and brought to an end an undeclared war that had lasted more than three years. Mrs. Eldridge said she could not help crying when President Eisenhower spoke of those men who would not return in his brief address to the nation. Mrs. Eldridge said both she and her husband had difficulty in sleeping this night, they were so excited over the truce.

Not unkind of what the future holds, the Eldridges realize that it will probably be some time before their son is actually released from the prison camp and allowed to return home.

Strawberry Crop Two-Thirds Off

FRANKFORT, Ky., July 27—Kentucky's 1953 strawberry crop was less than a third of that produced during 1952, according to a final report on the crop made today by the State Department of Agriculture.

The total this year was 79,105 crates, which includes strawberries marketed through associations and major processors in the state. The 1952 production was about 245,000 crates. The market value of this year's crop was \$556,323, for an average of \$7.03 a crate.

Poor weather conditions last season when the plants were started and this spring at blooming and bearing time were given decline in production. Despite the discouraging crop this year, growers have increased their plantings for the 1954 crop and, with normal or near normal weather, next year's yields ought to show a big increase, said the report.

CORRESPONDENT WRITES

The Courier

I used to report the Caney news about 11 or 12 years ago. Today I suddenly got to wondering what the paper is like now. So I am enclosing check for a subscription. I always enjoyed reading the Courier and all the news from good old Morgan county. I still have lots of friends and relatives back there, and when I go home to visit them I plan to visit the Courier office also.

I wrote the winning letter at one time in the Courier for my brother who was unable to go to school because of ill health.
